

American Society for Healthcare Risk Management  
**HRM WEEK**  
JUNE 18-22, 2018

Presented by

**THE RISK AUTHORITY**  
STANFORD

**At \_\_\_\_\_, we are leading together.**

We are celebrating Healthcare Risk Management Week Presented by The Risk Authority Stanford, June 18-22, 2018. This annual campaign from the American Society for Healthcare Risk Management raises awareness about the critical role healthcare risk managers and safety professionals play in patient safety, patient care practices, quality assurance, safe work environments, and liability. It also promotes solutions to help prevent some of the most common patient safety events.

This year's theme, "Leading Together" celebrates the leadership that health care risk management professionals provide for their organizations. In an Enterprise Risk Management environment, the health care risk manager provides leadership through collaboration with stakeholders across the entire organization with the common goal of delivering safe and trusted health care.

"We are extremely proud of how our entire staff works every day, along with our Risk Management professionals, to ensure our number one priority of patient safety," says (Name, title, name of organization). "We recognize the important role each employee plays in promoting safe and trusted healthcare. As we celebrate this special week, we applaud everyone's safety efforts. Thank you!"

\_\_\_\_\_ is celebrating HRM Week with these events: \_\_\_\_\_.

*(Note: Depending on the size of your Risk Management staff, you may want to recognize them by listing their name and any credentials such as CPHRM, and thank them for a job well done.)*
