

American Society for Health Care Risk Management

# HRM WEEK

## JUNE 15-19, 2020

**At \_\_\_\_\_, we are leading together.**

We are celebrating Health Care Risk Management Week June 15-19, 2020. This annual campaign from the American Society for Health Care Risk Management raises awareness about the critical role health care risk managers and safety professionals play in patient safety, patient care practices, quality assurance, safe work environments, and liability. It also promotes solutions to help prevent some of the most common patient safety events.

The theme this year "Celebrating Decades of Advancing Safe and Trusted Care" commemorates ASHRM's 40th Anniversary and the health care risk management profession's many achievements over the decades.

"We are extremely proud of how our entire staff works every day, along with our Risk Management professionals, to ensure our number one priority of patient safety," says (Name, title, name of organization). "We recognize the important role each employee plays in promoting safe and trusted health care. As we celebrate this special week, we applaud everyone's safety efforts. Thank you!"

\_\_\_\_\_ is celebrating HRM Week with these events: \_\_\_\_\_.

*(Note: Depending on the size of your Risk Management staff, you may want to recognize them by listing their name and any credentials such as CPHRM, and thank them for a job well done.)*
